

COMPOSITE DOORS

Homeowner

HOMEFRAME®

Welcome to **HOMEFRAME**

Our collection of GRP composite doors offer stylish good looks and high levels of security, to give you the best of both worlds. Browse through our brochure and choose the door style, colour, glass design and furniture to complement your home. From traditional terraced houses through to modern developments – we have a style to suit all.

You're in Safe Hands

HomeFrame is the GRP composite door brand of GAP, who are one of the largest manufacturers in the industry of low maintenance building products. We have been manufacturing and supplying high quality doors for over 30 years, so you can be confident you're in safe hands and that our doors stand the test of time.

HOMEFRAME

With a wide collection of traditional, classic and contemporary doors, **HomeFrame composite doors will help you add kerb appeal to your home.**

UNPARALLELED EXPERIENCE

When choosing a HomeFrame composite door, you are not only choosing a stylish and secure solution for your home, you are choosing to buy from a company that has outlasted its guarantee period many times over. Therefore you can sit back, relax and enjoy the transformation a new entrance door can provide.

OUR GUARANTEE

Every HomeFrame composite door is carefully manufactured and built to last. It is for this reason we are pleased to offer an installer backed 10 year guarantee on all doors produced. Terms and conditions apply.

LOW MAINTENANCE

The HomeFrame collection of GRP composite doors feature a remarkable insulating polyurethane foam core, which is protected by a secure Glass Reinforced Plastic (GRP) outer skin. This intelligent design makes our doors resistant to weathering and virtually maintenance-free, so your door will look its best for many enjoyable years to come.

THERMALLY EFFICIENT

Choosing a thermally efficient door is important, especially if you are upgrading from an older PVC or timber door. The benefits of a warm and cosy door will make a big difference to your home. When choosing a HomeFrame composite door, you will benefit from a thermally efficient frame, insulated core and energy efficient glass.

HIGH SECURITY

A wide range of security features including a multipoint lock and 3-star cylinder, ensure HomeFrame composite doors protect you and your loved ones from intruders.

5 Point Lock

Each door features a 5 point locking system that secures the door sash to the reinforced outer frame.

3 Star Cylinder

These locking cylinders* are the best available. They feature anti bump, anti snap, anti drill technology and have a sacrificial front face to deter thieves.

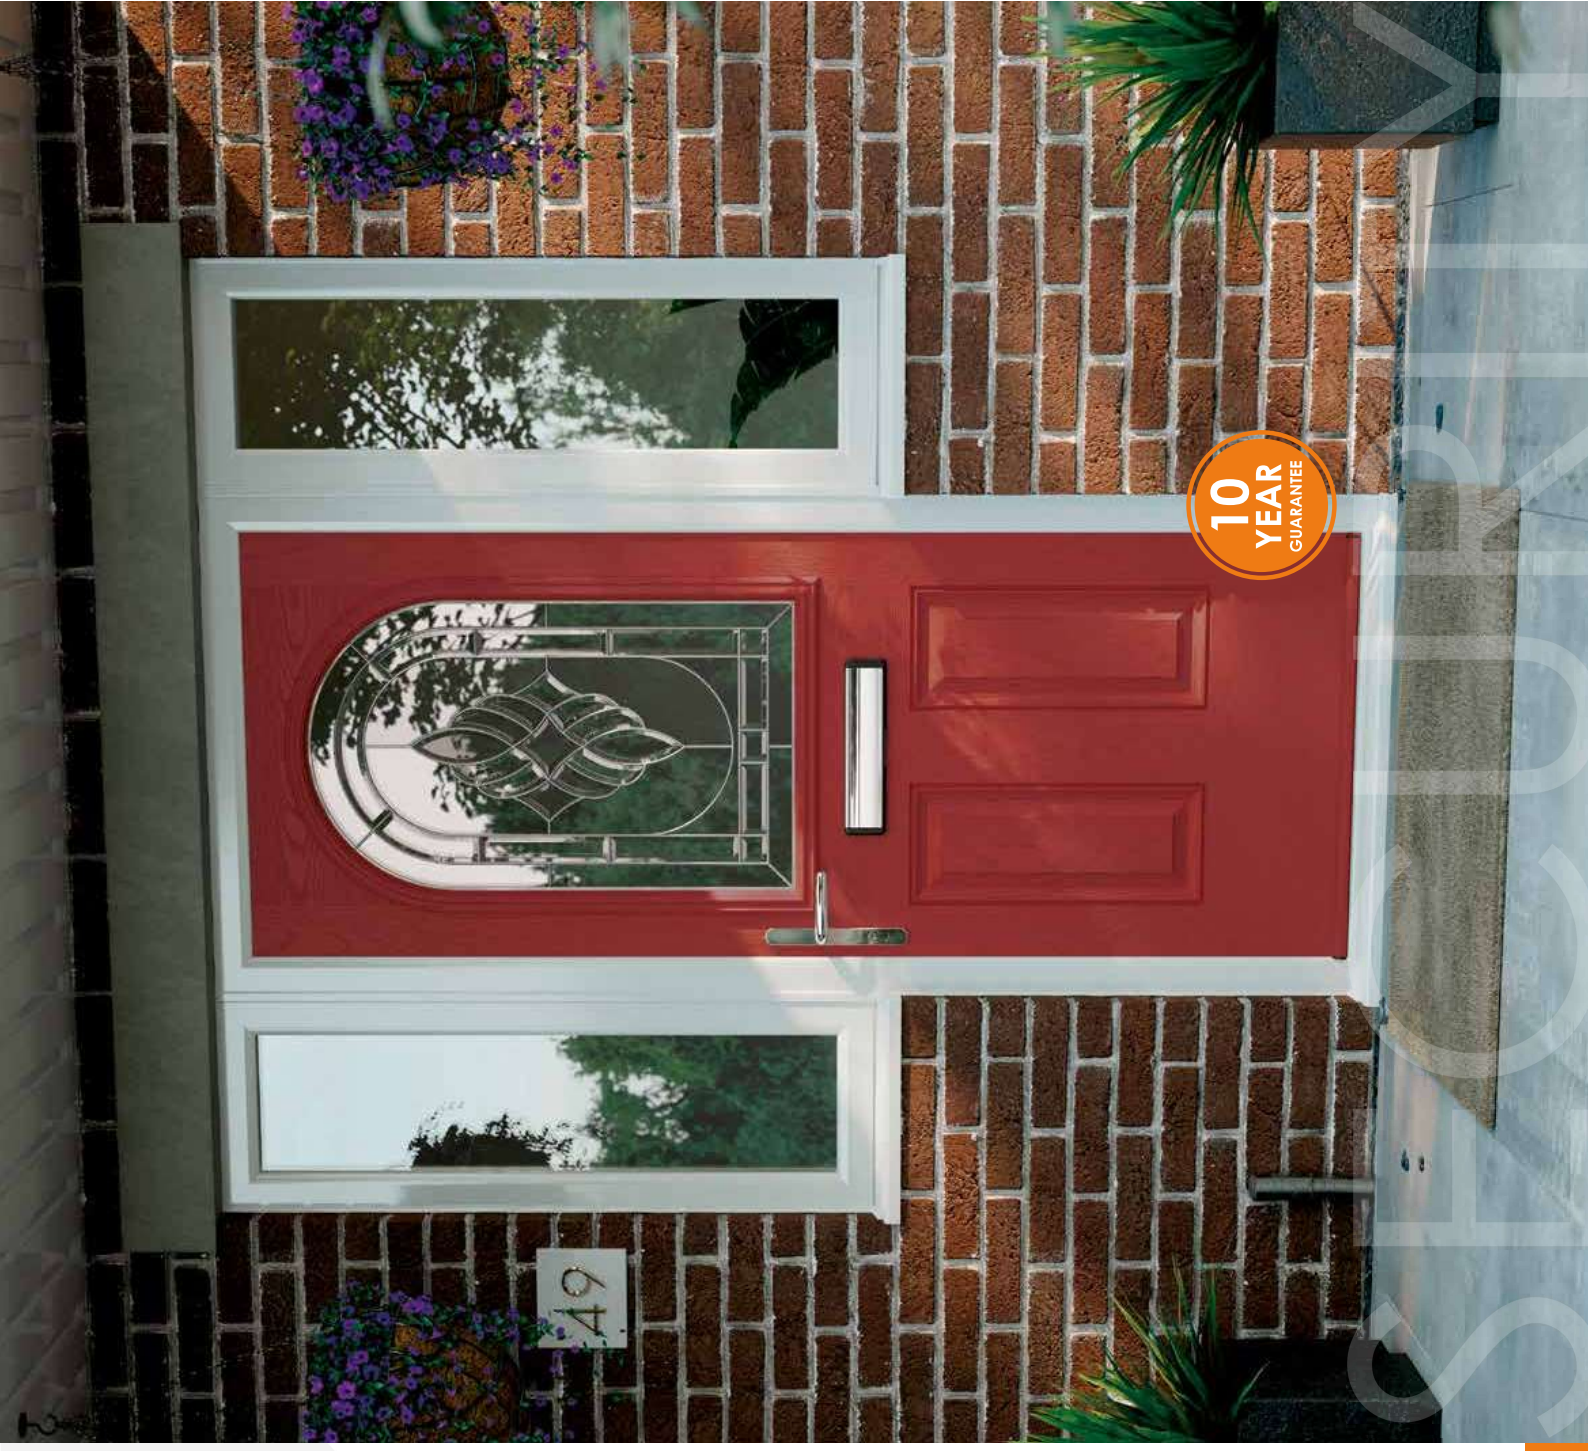

Steel Frame

Our PVC-U outer frame is internally reinforced with steel. This ensures the locking devices that engage into it from the door sash are very secure.

Weather Performance

GRP is a material used to make boats, so rest assured the surface finish of your door will protect you and your family from the elements.

TUSCANY

Whilst the Tuscany is our most popular style of back door, especially with integrated blinds, it also looks stunning as a front door with various striking glass designs and a Georgian bar effect available.

ETCH

Duck Egg Blue - Tuscany Grid Lite

TUSCANY GRID LITE

The Tuscany Grid Lite is available with a design called the Etch. This features special satin glazed units with a clear border, that appear as separate pieces of glass behind the Georgian bar effect glazing cassette, thanks to the clever use of spacer bars.

The Etch design is also available in the Madeira and Cannes door styles, and is available in a satin backing glass option too.

Clear

PRIVACY LEVEL 1

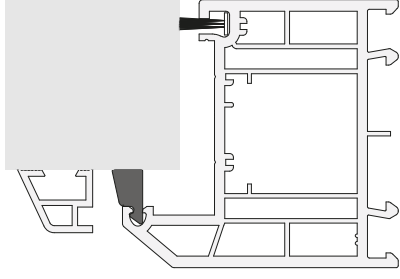

You can't get any clearer than clear glass. Perfect with back doors for seeing into your garden, or for front door side panels.

Designs & Patterns:

- Clear Glass

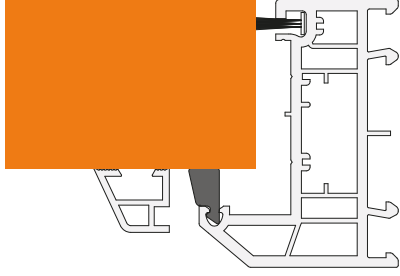

THRESHOLD OPTIONS

RECOMMENDED OPTION

FULL THRESHOLD 72MM

A full threshold offers maximum thermal performance.

SLIM THRESHOLD 52MM

This option provides the best of both worlds for thermal performance and practicality.

LOW ALUMINIUM 15MM

A low aluminium threshold provides easy access for prams and wheelchairs.

BACKING GLASS OPTIONS

The following backing glass options are available across all our doors styles, so you can choose any of our door styles with any of the glass options listed below.

CLEAR

CATHEDRAL

RAIN

FLUTED

PINPOINT

SATIN

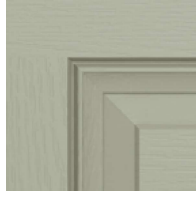

Please note, the above options can't be used in conjunction with a glass design.

DOOR COLOURS

HomeFrame composite doors are available in 20 colours that enable you to create the perfect entrance. These range from contemporary colours such as Agate Grey and Black, through to Duck Egg Blue and Chartwell Green.

Looking for an eye-catching door, then why not consider the recently added Clementine, Aubergine, Candy Red or Teal.

Each colour features a realistic timber grain to create the appearance of a timber door, but with none of the associated problems.
